

# WIRE HANDLES

## FOR WOOD BASKETS

### What do you want most from your wire handle supply company?

Is it a wire handle that doesn't rust, or is it a handle that's sturdy and makes your product easier to carry? If you are looking for American-made quality in a variety of options and sizes, Better Wire Products can handle it!

We provide a product that meets all of your requirements. Our galvanized wire handle is rust resistant and sturdy enough to carry a bountiful picking. The turned wood handle, made of select hardwoods grown in New England, provides a comfortable grip for carrying and is ideal for decorative crafting or attractive gift baskets. We offer bail wood handles in six sizes suitable for baskets ranging from 1/8 peck to 2 peck. We also carry ears for hooking the handles to your containers.

Let us help you put the finishing touch on your exceptional vessels—we think you'll love us, a bushel and a peck! Please visit our website for more information.
